

Electricity Facts Label
Hybrid Power, LLC
1 Month Wholesale Index Plan
AEP North Energy Service Area
Date: 12/18/2020

**Electricity
Price**

Average monthly use:	500kWh	1000 kWh	2000 kWh
Average price per kWh * :	9.9¢	9.5¢	9.3¢
Low Energy Price Example: 3.2¢	9.4¢	9.0¢	8.8¢
Mid Energy Price Example: 3.7¢	9.9¢	9.5¢	9.3¢
High Energy Price Example: 4.3¢	10.5¢	10.1¢	9.9¢

* The price disclosure above depends on usage amount and the following: Hybrid's Energy charge of 5.2¢ (comprised of prior year's average of the Real Time Settlement Price Points for the load zone serving the customer which was 3.7¢ plus 1.5¢ per kWh) plus TDSP, ancillary, and PUC assessment charges.

Estimated Ancillary Service charge: \$0.005 per kWh and will be settled up to the actual charge each month.

Estimated PUC assessment charge: \$0.00015 per kWh fee based on 1000 kWh use in a month at the average energy price of 9.5¢ and will be settled up to actual usage monthly. This fee is the charge assessed by the PUCT to recover the statutory fee for administering the Public Utility Regulatory Act. It is equal to 1/6th of 1% the charges on your bill, excluding sales tax.

TDSP Delivery Charge: \$3.57 per month and 3.5¢ per kWh

TDSP charges: This is what your local Utility charges for maintaining the transmission and distribution infrastructure and metering of your electricity. These costs are passed through without markup.

Ancillary Service charges: A service necessary to support the transmission of energy to Loads while maintaining reliable operation of the Transmission Service Provider's (TSP's) transmission system using Good Utility Practice.

Price Formula: ((kWh consumed *(Hybrid Energy Charge+TDSP per kWh charge +Ancillary per kWh + PUC assessment charge) + TDSP Base Charge) divided by kWh consumed)

*Prices are exclusive of state and local sales taxes, the Gross Receipts Reimbursement and TDSP underground charges where applicable

The wholesale price of electricity updates every 5 minutes, is published by ERCOT every 15 minutes, and includes the electricity charge plus any other per kWh system reliability charges - available at <http://www.ercot.com/mktinfo>, the Hybrid Power App, or call 1-844-949-2743

**Other Key
Terms and
Questions**

See Terms of Service for a full listing of fees, deposit policy, and other terms.

**Disclosure
Chart**

Type of Product	Residential Index Rate Product
Contract Term	1 Month
Do I have a termination fee or any fees associated with terminating service?	No
Can my price change during the contract period?	Yes, consistent with ERCOT's wholesale pricing of electricity.
If the price can change, how will it change and by how much?	The price applied in your first billing cycle will be different from the price in this EFL to reflect the ERCOT Real Time settlement prices, actual changes in TDSP Delivery Charges, TDSP Surcharges, Electric Reliability Entity administrative fees charged to loads, changes resulting from federal, state or local laws, regulatory actions that impose new or modified fees and costs that are outside of our control.
What other fees may I be charged?	Payment processing fee of \$2.50 per \$500 of usage. Example: If you have \$700 of usage you will have two \$2.50 fees and if you had \$1,100 of usage you would be charged three \$2.50 fees. Charges for required nonrecurring fees will be listed as separate line items on your monthly bill. Please refer to your Terms of Service for more detailed information.
Is this a pre-pay or pay in advance product?	No
Does Hybrid purchase excess distributed renewable generation?	No
Renewable Content	
Statewide average for Renewable Content	17%
	21%
